Agile Methodologies and effective communication

Assignment 1: Agile Project Planning - Create a one-page project plan for a new software feature using Agile planning techniques. Include backlog items with estimated story points and a prioritized list of user stories.

Agile Project Plan: New Software Feature

Objective: Enhance user experience through new feature implementation.

Backlog Items:

User login functionality - 5 story points (High Priority) - Users need a secure way to access the platform.

Profile customization options - 8 story points (High Priority) - Users want to personalize their profiles.

User profile search - 5 story points (Medium Priority) - Users need to find other profiles easily.

Post creation and editing - 13 story points (High Priority) - Users should be able to create and edit their posts.

Notifications for interactions - 8 story points (Medium Priority) - Users want to be notified of new interactions.

Like and comment on posts - 5 story points (High Priority) - Users want to engage with posts.

Sprint Plan:

Sprint 1 (2 weeks):

Implement user login and basic profile customization.

Develop user profile search functionality.

Sprint 2 (2 weeks):

Complete profile customization features.

Implement basic post creation and editing.

Sprint 3 (2 weeks):

Enhance post creation/editing.

Add notifications for interactions.

Integrate like/comment functionality.

Key Stakeholders:

Product Owner

Development Team

Quality Assurance Team

Assignment 2: Daily Standup Simulation - Write a script for a Daily Standup meeting for a development team working on the software feature from Assignment 1. Address a common challenge and incorporate a solution into the communication flow.

Daily Standup Meeting Script:

Facilitator: Good morning, everyone. Let's start our standup meeting.

Facilitator: Our focus remains on improving user experience through our new software feature. Let's hear from each team member about their progress and any obstacles they're facing.

Developer 1: Yesterday, I completed user login and began working on profile customization. Smooth sailing so far.

Facilitator: Excellent work, [Developer 1]. Keep it up.

Developer 2: I tackled user profile search yesterday but hit a snag with the search algorithm. Need some guidance to resolve it.

Facilitator: Thanks for sharing, [Developer 2]. [Developer 3], could you assist with that?

Developer 3: Of course, I'll lend a hand.

Facilitator: Great teamwork. [Developer 4], your update?

Developer 4: I made progress on post creation/editing yesterday. Today, I'll continue that and start on notifications.

Facilitator: Good plan, [Developer 4]. Let us know if you need support.

Facilitator: Any other updates or challenges from the team?

Developer 5: I encountered an integration issue with the notifications feature. Planning to reach out to the provider for help.

Facilitator: Thanks for flagging that, [Developer 5]. Let us know if you need backup.

Facilitator: Alright, team. Let's keep pushing forward. If you encounter any roadblocks, don't hesitate to ask for assistance.

Facilitator: That's all for today's standup. Let's tackle those tasks and reconvene tomorrow.
